Amendment

This form is for disclosing the receipt of travel expenses from private sources for travel taken in connection with official duties. This form does not eliminate the need to report privately-funded travel on the annual *Financial Disclosure Statements* of those employees required to file them. In accordance with House Rule 25, clause 5, **you must complete this form and file it with the Clerk of the House, by email at [gifttravelreports@mail.house.gov](mailto:gifttravelreports@mail.house.gov), within 15 days after travel is completed.** Please **do not** file this form with the Committee on Ethics.

**NOTE: Willful or knowing misrepresentations on this form may be subject to criminal prosecution pursuant to 18 U.S.C. § 1001.**

March 23, 2023

Mr. John Stout  
Office of the Honorable Tim Burchett  
1122 Longworth House Office Building  
Washington, DC 20515

Dear Mr. Stout:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Madagascar,<sup>1</sup> scheduled for April 1 to 8, 2023, sponsored by United Nations Foundation, and Eleanor Crook Foundation.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$480 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House employees may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$480] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

---

<sup>1</sup> Please be aware that the Committee's review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Office of House Security (OHS) for a safety and security briefing prior to your departure. OHS may be reached at (202) 226-2044 or [ohsstaff@mail.house.gov](mailto:ohsstaff@mail.house.gov). House travelers should also register for the U.S. State Department's Smart Traveler Enrollment Program at <https://step.state.gov>.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

The delegation will visit a food distribution site where WFP is providing emergency food assistance through general food distributions (GFDs) to meet the immediate food needs of vulnerable drought-affected and food-insecure people in southern Madagascar. At this site, WFP also engages in the prevention of acute malnutrition among children between 6 and 23 months and pregnant and lactating women through the distribution of nutrition supplements, awareness-raising sessions, and screening.

The delegation will also visit the outpatient rehabilitation and nutrition education center onsite and meet with members of the local community who receive nutritional support to prevent nutritional deterioration and meet with WFP staff that conduct screenings for acute malnutrition and monitor the evolution of children's mid-upper arm circumference (MUAC).

2:45pm – 3:00pm Transit via hired car to UNDP Project Site

3:00pm – 3:30pm      **UN Development Programme (UNDP) “Fixing the Dunes”  
Project Visit**

The delegation will visit a UNDP sand dune-fixing project, which is strengthening the resilience of local communities in Androy to drought and contributing to the preservation of crop fields. Fishing communities in Southern Madagascar have been severely impacted by sand that has begun sweeping onto the coast from dry areas inland. Houses, schools, and once lush, green stretches of land have been buried in sand, engulfing entire villages and forcing hundreds of people to move away from the sea or risk having their homes subsumed.

UNDP’s “Fixing the Dunes” project aims to stave off these encroaching dunes by planting three kinds of flora adapted to sand and drought, whose roots sink into the sand and stop dunes from moving. Lalanda, a creeping plant, retains soil moisture, while sisal and filao grow large enough to lessen the impact of the wind. Once fully grown and providing sufficient protection, they can also be used to build shelters and for firewood, thus limiting deforestation. This intervention is based on the progressive approach aimed at stabilizing income, building up savings, supporting community organization, technical support and finally setting up a revolving fund.

3:30pm – 4:00pm      Transit via hired car to WFP Rapid Rural Transformation Site

4:00pm – 5:00pm      **WFP Rapid Rural Transformation Programme Site Visit**

The delegation will visit a WFP solar energy transformation project that is part of the organization’s rapid rural transformation (RRT) initiative, which aims to stimulate income-generating activities through agricultural transformation. The delegation will examine Solar-Powered Hubs that provide the community with sustainable off-grid green energy solutions. In addition to new entrepreneurship opportunities, the availability of new affordable and sustainable energy solutions has helped increase access to water for potable use and irrigation, run healthcare equipment, increase internet connectivity, and develop agricultural value chains.

5:45pm                  Arrive Berenty Lodge

5:45pm – 7:00pm      Executive Time

7:00pm – 8:30pm      **Working Dinner with Catholic Relief Services (CRS)**

The delegation will have a working dinner with CRS staff based in Southern Madagascar to learn how the NGO is working to combat hunger and malnutrition in the Grand Sud. CRS is providing over \$20 million of emergency food assistance to the South of Madagascar for the next two years, including food assistance to over 220,000 people and nutrition counseling and monitoring to over 25,000 children. CRS is also repairing water points to provide much needed water to people in this extremely arid environment.

7:30am – 9:15am      Transit via hired car to UN Children's Fund (UNICEF) Integrated Healthcare Center

9:15am – 10:45am      **UN Children's Fund (UNICEF) Integrated Health Center Site Visit**

The delegation will visit a basic health center supported by UNICEF that integrates the full package of high impact nutrition interventions. This includes treatment for severe acute malnutrition, a critical intervention in nutrition crisis situations such as those experienced since 2019. Treatment for severe acute malnutrition is carried out by trained nurses using a medical-nutritional protocol that includes the use of therapeutic nutrition products and medical treatment for an average treatment duration of 45 days.

Madagascar is one of the worst countries in terms of child survival and health coverage, with UNICEF projecting 2.4 million Malagasy children will require humanitarian assistance in 2023, including 479,000 children aged 6-59 months who are expected to suffer acute malnourishment through the lean season. Increased stress and economic pressure on families expose 533,000 children to violence, abuse and exploitation, including child marriage, child labour and gender-based violence. Through

a network of integrated health centers, UNICEF is treating 92,000 children with severe wasting, 759,000 children with Vitamin A supplementation, and providing 230,000 women and children with gender-based violence mitigation services.

10:45am – 11:00am Transit via hired car to UNICEF Water Desalination Site at Ambondro Primary School

11:00am – 11:45am **UNICEF Water Desalination Site Visit**

The delegation will visit a UNICEF Water Desalination Systems and Multipurpose Water Points Project at a primary school in Ambondro that is producing potable water for drought-affected communities.

Southern Madagascar has the country's lowest water supply coverage, seriously limiting access to potable drinking water and prompting many families to resort to negative coping strategies to the detriment of their children – such as discontinuing their children's education in order to afford water sold at exorbitant prices. In rural areas, only 36% of households utilize improved water facilities, like using borehole drilling (a deep, narrow hole made in the ground, especially to locate water); however, this method has a very low success rate due to the scarcity of groundwater and the high level of salinity.

Like many others, the commune of Ambondro suffers from salinity in the water table, making the water unfit for consumption. This project consists of the installation of a reverse osmosis desalination system to treat mineral-laden water to provide drinking water and the installation of several drip irrigation kits to help improve the health and economic conditions of the population. The project is under way and is expected to be operational by mid-April 2023, improving access to drinking water for about 5,900 inhabitants.

12:00pm – 1:00pm **Working Lunch with Ambovombe-based UNDP, UN Food and Agriculture Organization (FAO), and International Fund for Agricultural Development (IFAD) Colleagues**

The delegation will have a working lunch with Ambovombe-based colleagues to learn how UNDP, FAO, and IFAD are working collaboratively to respond to the food security challenges in Southern

Madagascar while avoiding inter-agency duplication and redundancy.

*Location: Town hall*

1:00pm – 1:15pm Transit via hired car to FAO Site

1:15pm – 2:30pm **FAO Animal Husbandry and Micro-Irrigation Site Visit**

The delegation will visit a local shareholder farm supported by FAO's Irrigation and Watershed Management programme, which seeks to increase farming productivity and enable the conservative management of natural resources. The micro-irrigation system deployed at this site utilizes a drop-by-drop distribution system connected to a cistern powered by a submerged pump (flow 1.1m<sup>3</sup> per hour) and two photovoltaic panels of 80 Watts each. This system makes it possible to irrigate 500m<sup>2</sup> of crop plot on which farmers can do at least three crop cycles and up to 1000m<sup>2</sup> thanks to the micro-irrigation system. This device is being scaled up.

The delegation will meet with chicken breeders of the Kuroiler breed, introduced by the FAO in 2021 in the South-East Region of Madagascar and promoted in the Grand Sud regions. This is a resilient and successful breed, bred for both eggs and meat. Thanks to income from market gardening, agricultural producers have been able to develop their livestock, and vice versa.

The delegation will also be able to meet with associations of quality seed producers and multipliers trained by FAO on the site, and who are certified by the official national seed certification service (SOC). The seed production is not interrupted throughout the year thanks to the irrigation system. These associations provide the community with quality seeds, and FAO also buys back a part of their production to provide other agricultural households with support for their agricultural activities revival.

The delegation will also be able to discuss with small ruminants breeders on this same site, for whom the FAO has introduced a new breed of goat, given training on animal feed and health, and in the construction of modern goat houses allowing a better development of livestock.

*Location: Ambondro*

2:30pm – 2:45pm Transit via hired car to IFAD Site

2:45pm – 3:00pm **IFAD Eco-Agriculture Site Visit**

The delegation will visit a large plot of land where farmers are implementing new UN-supported eco-agriculture practices to overcome cyclical problems linked to drought and climate change. Through the

dissemination of appropriate and more effective technical and technological packages, the distribution of millet, sorghum and legumes (adapted to drought conditions) and the establishment of a cattle feeding system, IFAD is promoting sustainable agriculture and improving the nutritional situation of households.

The project was designed to make poor rural people's access to land and water more secure through the productive development of arable land and the sustainable management of valley bottoms and micro attachment areas—allowing for the adoption of sustainable practices in annual crops, i.e. water management, no tillage/residue management, to lay sustainable intensification and diversification of irrigated and rainfed agricultural systems in watersheds, as well as reducing deforestation and developing forested areas. This allows for sustainably improving and securing farmers incomes, as well as integrating people who have recently immigrated into the zone and contributing to climate change mitigation.

The project aims to train at least 2,500 members of the local community in the cultivation of high-performance legumes, cereals, and fodder in semi-arid conditions. At least 1500 Ha of area will be cultivated by more efficient species and scaled up innovative agro-ecological techniques have been adapted with food crops as an income-generating activity: cassava, sweet potato, maize, sorghum, cowpea, konoke, spineless cactus, etc.

*Location: Ambondro*

3:00pm – 3:15pm Transit via hired car to UNDP Project Site

3:15pm – 4:15pm **UNDP Sisal Processing Cooperative Site Visit**

The delegation will visit the Miraihina cooperative, which helps strengthen the communities' resilience in the face of drought, while protecting cultural practices. Sisal has grown abundantly for generations across Madagascar. It's easy to maintain and because of its deep taproots can withstand harsh winds and floods. Communities have primarily used it for making rope. But long-standing drought, destructive cyclones and pests have caused poor harvests over the past several years.

The delegation will learn how 100 beneficiaries (70 women and 30 men) have learned to process sisal, for which the climate in southern Madagascar is favorable, and to dye and weave sisal into more elaborate—and marketable—artisan craft products that are sold, providing a stable source of income for the community. The delegation will meet with community members who have been trained on sisal planting (theoretical and practical); the transformation of sisal into finished products and

marketing; and the maintenance and management of machinery and equipment.

Madagascar to learn how European partners, through the Directorate General for Humanitarian Aid and Civil Protection (DG ECHO), systematically works to meet the immediate needs of victims of natural disasters and other climate-related challenges in terms of food, access to water and sanitation, basic health care, and more.

Madagascar is the 5th most vulnerable country to climate change and has faced for several years a multiplication of extreme events linked to climate variations, regularly prompting humanitarian emergencies. EU humanitarian funding for Madagascar amounted to €19.9 million in 2022, including nearly €2 million for the response to the 2021/2022 cyclonic season. The EU and its Member States have strongly contributed to the Government's immediate response to help the affected populations. In addition, the European Commission provided €1 million in humanitarian assistance to support vaccination efforts in Madagascar.

3:30pm – 5:30pm **FAO Green Cities Initiative Site Visit and Meeting with Mr. Naina Andriantsitohaina, Mayor of Antananarivo**

The delegation will visit an FAO Green Cities Initiative site in Antananarivo and meet with the Mayor of Antananarivo and/or his Director of Economic Development, as well as with the staff of the Urban Commune of Antananarivo to learn about the initiatives supported by FAO for the rehabilitation of the city and the integration of urban food systems in the activities.

Launched in September 2020, FAO's Green Cities Initiative aims to improve the livelihoods and well-being of urban and peri-urban populations in at least 100 cities around the world. The Green Cities Initiative focuses on improving urban environments and strengthening urban-rural linkages and the resilience of urban systems, services, and populations to external shocks. In addition, the Initiative works to ensure access to healthy diets from sustainable agri-food systems, increasing availability of green spaces through urban and peri-urban forestry. This site (one of 5 in the city) has a composting area, a nursery for fruit and ornamental trees, model vegetables gardens and farms, a shop/kiosk selling agro ecological products, and a space for youth training in urban agriculture (roof gardens, home gardens, vertical farms, aquaculture, etc.). FAO trained the commune's staff in climate-smart and nutrition-sensitive ecological urban agriculture practices and donated resilient plant seeds and planting materials as well as equipment for nursery and site maintenance.

1:00pm – 2:00pm **Working Lunch with Ms. Anne N. Williams, USAID Mission Director and USAID Country Team**

The delegation will have a working lunch with Anne N. Williams, USAID Mission Director and the USAID Country Team to discuss U.S. bilateral and multilateral support for global hunger and food security initiatives in Madagascar.

The U.S. recently designated Madagascar as a target country for both the global Feed the Future initiative and USAID's new resilience initiative and how such designations will deliver significant new U.S. investments that will help Madagascar improve its food security and develop its agricultural sector.

For nearly four decades, the U.S., through USAID, has been Madagascar's foremost development partner, working side-by-side with the Malagasy people like "mpirahalahy mianala" to help the country achieve its development goals. In 2021, USAID provided Madagascar \$182 million development assistance, including \$72 million to control malaria and improve maternal and child health, family planning, water and sanitation, and nutrition. The United States also donated \$87 million for food security and emergency assistance, \$13.5 million to fight COVID 19, and \$8.25 million to protect the environment.

2:45pm – 4:15pm **Royal Hill of Ambohimanga Visit and Briefing by Hubert Gijzen, UNESCO Regional Director**

The delegation will visit the Royal Hill of Ambohimanga—one of the

most important spiritual, cultural, and historical sites for the Malagasy people and a UNESCO World Heritage Site since 2001. First occupied in the fifteenth century, the Royal Hill of Ambohimanga emerged as a fortified political capital and royal palace during the reign of King Andriantsimitoviaminandriana (r. 1740–1745), eventually becoming the cradle of the kingdom and the dynasty that made Madagascar a modern state. The Royal Hill has since then become the most significant symbol of cultural identity for the people of Madagascar and is associated with strong feelings of identity and emotion relating to the sacred nature of the site and its many venerated royal tombs, numerous holy places (fountains, sacred basins and woods, sacrificial stones), and majestic royal trees.

During the visit, the delegation will receive a briefing from Hubert Gijzen, UNESCO Regional Director, on how UNESCO works with the Madagascar Ministry of Culture and the Office of the Cultural Site of Ambohimanga (OSCAR), to maintain and protect Royal Hill, as well as coordinate with national authorities to develop regional economic incentives connected to the Royal Hill of Ambohimanga, enhancing employment opportunities for the local population.

**12. Description of the sponsor's interest in the subject matter of the trip and its role in organizing and/or conducting the trip:**

The UN Foundation (UNF) works to educate all Americans, including the U.S. Congress, on the importance of a strong U.S.-UN relationship, with a particular focus on global health issues such as child nutrition and food security. This learning trip provides an opportunity for policymakers to better understand how the UN is working to prevent and treat severe acute malnutrition, alleviate food insecurity, and generally promote good health and well-being in Madagascar.

The Eleanor Crook Foundation (ECF) was founded in 1997 with a single goal: to eradicate global malnutrition. ECF invests in research that proves what methods work, policy analysis to drive systems reform, and advocacy that makes the case for urgent action to address this global crisis. In 2017, the Foundation pledged \$100 million towards the elimination of global malnutrition.

UNF is organizing all aspects of the program/logistics. UNF handles all outreach to congressional offices and is the contact for planning purposes. UNF received a grant from ECF to partially support this trip. ECF has not played any role in organizing this trip and has not been involved in the selection or invitation of the trip participants.

**13c. If travel will be first class, or by chartered or private aircraft, explain why such travel is warranted:**

The delegation will be traveling roundtrip from Antananarivo to Ambovombe via chartered United Nations Humanitarian Air Service (UNHAS) flights, which is the only way to fly to/from Ambovombe. UNHAS, which is managed by the World Food Programme (WFP), offers safe, reliable, cost-efficient, and effective passenger and light cargo transport for the wider humanitarian community to and from areas of crisis and intervention. UNHAS responds to the need for access to the world's most remote and challenging locations, often under precarious security conditions, where no safe surface transport or viable commercial aviation options are available. UNHAS only offers coach travel classes.

**15b2. Provide the reason for selecting the location of the event or trip:**

While often overlooked, Madagascar is suffering through what's been referred to as potentially the world's first climate-change famine—a massive humanitarian crisis sparked, in part, by prolonged drought, cyclones, sandstorms, and other extreme weather that's decimated agricultural production and left an estimated 2 million people in the south of the country in acute food insecurity and 500,000 children under the age of 5 suffering from acute malnutrition. With livelihoods and food access severely jeopardized by the crisis, Madagascar has become one of the top five countries most affected by hunger and malnutrition, according to the Global Hunger Index 2022.

Over the course of five days, the delegation will see how the UN System is collaboratively responding to these significant challenges. The delegation will spend time in Antananarivo, the capital of Madagascar, meeting with the UN Resident Coordinator, U.S. Ambassador to

Madagascar, and the Government of Madagascar. They will then travel south to see the impacts of the situation up close, meeting with colleagues from UNICEF, WFP, FAO, IFAD, and more that are working on-the-ground to deliver lifesaving food aid, including supplementary products to prevent malnutrition, as well as deploying expert technical support designed to address the root causes of the crisis through climate-smart agricultural projects, local adaptation/resilience initiatives, and similar long-term efforts.
